

# Little Composers' Learning

Our class is led by a qualified teacher, alongside Nursery practitioners and is set out to provide experiences to cover all 7 areas of learning.

- Personal, Social and Emotional Development
- Communication and Language Development
- Physical Development
- Literacy
- Mathematics
- Knowledge and Understanding of the world
- Expressive Arts and Design

We encourage the development of these areas of learning by providing a wide range of exciting and challenging activities and resources.

Each day a variety of activities are set up for the children to encourage their curiosity. There is also the option for the children to make their own choices and choose their own resources.

Our preschool children are also encouraged to develop their mark making and early writing skills through play and we introduce phonics in a fun and engaging way when we feel the children are ready.

## Your child's learning journey

We make and document regular observations of your child to ensure that they are learning and developing to the best of their ability. Your child will have their own online learning journey which you can access from home, to see all the exciting things they have been learning.

We are more than happy to discuss your child's day and their progress with you, and a staff member will always be available to chat with you.

## Preparation for school

We understand that your child's move to school can be a daunting one for both parents and the child. At Little Composers Nursery we ensure we support your child's transition process to make it as smooth as possible. Children who choose to attend East Stour Primary School will have many opportunities to visit their new teachers, classroom and outside area in the summer terms before they start school. We will work closely with any other schools which our children attend to ensure they settle well into their new school.
