APPENDIX 1 (Taken from the Online Safety Policy)

Inappropriate online behaviour or use of Social Network Sites

As a school we take online responsibility and digital footprints very seriously and ensure this is firmly embedded in our acceptable use policies and online safety expectations.

Social media websites are being used increasingly to fuel campaigns and complaints against schools, Headteachers, school staff, and in some cases other parents or pupils.

The Department for Education/Government and Governors of East Stour Primary School considers the use of social media websites being used in this way as unacceptable. Any concerns you may have about the school or your child/children must be made through the appropriate channels by speaking to the class teacher, the Headteacher or the Chair of Governors, where they will be dealt with fairly, appropriately and effectively for all concerned.

Libellous or Defamatory posts - In the event that any pupil or parent/carer of a child/children at East Stour Primary School is found to be posting libellous or defamatory comments on Facebook or other social network sites; about staff, pupils or other parents; they will be reported to the appropriate 'report abuse' section of the network site. All social network sites have clear rules about the content which can be posted on the site and they provide robust mechanisms to report content or activity which breaches this. The school will also expect that any parent/carer or pupil removes such comments immediately.

Cyber Bullying - we take very seriously the use of cyber bullying by one child or a parent to publicly humiliate another by inappropriate social network entry. We will take and deal with this as a serious incident of school bullying. The school will also consider its legal options to deal with any such misuse on social networking and other sites.
